

Travel and Accommodation Policy

Booking rules, class of travel and daily allowances

Document ID	FIN-POL-007	Version	1.4
Effective Date	1 September 2025	Owner	Finance
Classification	Internal	Supersedes	FIN-POL-007 v1.3 (1 January 2025)

1. Before you book

All business travel requires line manager approval before booking. Travel is booked through the company travel desk. Bookings made directly with an airline or hotel are reimbursed only where the travel desk was unable to make the booking and has confirmed this in writing.

Flights and hotels should be booked **at least 14 calendar days** before departure. Bookings made inside 14 days require department head approval, which should record why earlier booking was not possible.

2. Class of travel

Scheduled flight time (one way)	Class permitted
Under 6 hours	Economy
6 hours or more	Business, at the traveller's discretion
Any duration, where the traveller has a documented medical need	Business, with People Operations agreement

Rail travel is standard class for journeys under three hours and first class above that, where first class is cheaper than the equivalent flexible standard fare.

3. Accommodation

Destination	Maximum room rate per night	Notes
Within Saudi Arabia	SAR 800	Excluding taxes and fees
International	SAR 1,200	Excluding taxes and fees
Designated high-cost cities	SAR 1,600	List maintained by the travel desk and reviewed twice a year

Where no room is available within the cap, the travel desk may authorise up to 20% above it and must record the reason. Room service, minibar and in-room entertainment are not reimbursed.

4. Daily allowance

A per diem is paid for each full day away from the normal place of work, intended to cover meals and incidental costs. Where meals are provided as part of a conference or by a client, the per diem is reduced by one third for each meal provided.

Destination	Per diem per full day	Per diem for a partial day
Within Saudi Arabia	SAR 250	SAR 125
International	SAR 400	SAR 200

A partial day is one on which the traveller departs after 12:00 or returns before 12:00. Receipts are not required for per diem, which is paid as a flat amount.

5. Ground transport

- Taxis and ride-hailing services are reimbursed for business journeys with a receipt.
- Car hire is permitted where it is cheaper than the equivalent taxi cost or where public transport is impractical. Compact class only.
- Mileage in a private vehicle is reimbursed at SAR 1.10 per kilometre.
- Airport parking is reimbursed for up to seven days. For longer trips, a taxi to the airport is expected.

6. Claiming travel costs

Travel costs are claimed through the normal expense process in FIN-POL-003 and are subject to the same submission deadlines and receipt requirements. The approval thresholds in FIN-POL-003 apply to the total cost of the trip, not to individual items within it.
